June 2026

Wheel of Experts Program

It's been an exciting year for AEF! Our Creekside Gardening, Music and Robotics program served the students with enthusiasm and skill from our Wheel of Expert Staff. The Extended Learning Program (ELOP) at Boulder Oaks and Shadow Hills provided a variety of science, gardening, nutrition and STEM coursework.

Best Year Yet at the District Wide STEAM Fair at Joan MacQueen

This year's STEAM Fair featured 144 Student Science Projects, 22 Student Entrepreneur Projects, an obstacle course, and a field of games. It was an amazing turnout and we are so very grateful for the support from Dr. Newman and the AUSD Staff, the Liberty Charter High School student volunteers, Thrivent Financial and our AEF Staff.

Career Fair & Punkin Chunkin

AEF also facilitated a Career Fair at JMMS, featuring 12 local businesses sharing expertise in their fields. Punkin Chunkin, a fourth grade physics event, also had a great showing this past school year.

Upcoming Events

- Ready Break Summer Camp K-8th 7/6-7/17
- Ready Break Sports Camp 6-8th 6/15-6/19
